

Vinyl-windows

The ultimate in safety! - permanently integrated padding & vinyl window

A perfect combination of protection against injury and the freedom to look out of bed.
Many variations are possible! And the best thing is that you don't compromise on the padding's performance!

The fixed padding is 75 mm thick (see detailed images on the right) and is mounted on a wooden panel, which in turn is securely attached to the bed.

The vinyl window is already integrated into the padding. Height adjustment remains possible, as all dimensions are customised. Unfortunately, this means that retrofitting the fixed padding is not possible.

No risk of injury for your child!

Open side front thanks to four-winged folding sliding door

Thanks to its folding sliding mechanism, the door offers the maximum stability and precise operation in every position. The design is a harmonious combination of quality and function. The entire front side can be opened in this way.

Tom adapts perfectly to the situation and makes everyday life with your child easier. Naturally by request we can also offer customised additional doors, and custom-made sloping roofs are also not a problem for us.

Safety first – SAVI door locks

- 1 Child-proof SAVI-lock I (base)
- 2 Child-proof SAVI-lock I made of metal
- 3 SAVI-lock II
- 4 SAVI-lock III: The labyrinth guide prevents the child opening the bed by accident. This lock is keyless and has no magnets. Can also be retrofitted.
- 5 SAVI-lock IV: Here too the bed is opened by means of a labyrinth guide, but in addition this lock also operates against resistance. This lock is keyless, without magnets and can be retrofitted.
- 6 External lock on side of bed (increases the stability and provides more secure)

Tom

All functions of the bed can always be used without removing the padding beforehand!

Optimum protection thanks to fixed Skai-padding

Your child is very active? With the fixed Skai-padding (75 mm thickness), you offer your child optimum protection.

For more information on the different padding options, see page 83/84!

Optimal view thanks to integrated vinyl windows

The integrated vinyl windows fit flush with the fixed Skai-padding and thus offers a similar padding effect to the permanently integrated foam padding.

The windows offer an optimal view. So you keep an eye on your child easily and your child feels visibly more comfortable.
