

Vinyl-windows

The ultimate in safety! - permanently integrated padding & vinyl window

A perfect combination of protection against injury and the freedom to look out of bed.
Many variations are possible! And the best thing is that you don't compromise on the padding's performance!

The fixed padding is 75 mm thick (see detailed images on the right) and is mounted on a wooden panel, which in turn is securely attached to the bed.

The vinyl window is already integrated into the padding. Height adjustment remains possible, as all dimensions are customised. Unfortunately, this means that retrofitting the fixed padding is not possible.

No risk of injury for your child!

Niklas

Curious how the child care bed Niklas
(90 x 200 cm, 40 + 20 cm barred
sides) looks in your nursery? →

Simply scan the QR code and
place the bed visually in your
nursery!

Be safe and free – Niklas offers your child unlimited freedom thanks to individual design options.

Our Niklas offers extreme flexibility and functionality in the barred sides. This bed can be reached from all sides because the grilles can be lowered independently of each other.

Maximum safety combined with limitless freedom – a good combination for well-being.
