

Vinyl-windows

The ultimate in safety! - permanently integrated padding & vinyl window

A perfect combination of protection against injury and the freedom to look out of bed.
Many variations are possible! And the best thing is that you don't compromise on the padding's performance!

The fixed padding is 75 mm thick (see detailed images on the right) and is mounted on a wooden panel, which in turn is securely attached to the bed.

The vinyl window is already integrated into the padding. Height adjustment remains possible, as all dimensions are customised. Unfortunately, this means that retrofitting the fixed padding is not possible.

No risk of injury for your child!

Plexiglas windows from the outside

A special chamber system ensures the padding remains secure, even around the windows!

Scan the QR code to find out more about our solid Skai padding with integrated vinyl windows and its padding capabilities!

Vinyl windows from the inside – a seamless blend with the padding!

design elements

Lovely design elements for our children's care beds!

You can now enhance our tried-and-tested children's care beds with sets of design elements. This makes the care bed not only functional, but also a familiar, comforting space for your little

Customise the bed to suit your child's personality and create an environment that conveys a sense of security and joy.

Simply specify your choice when placing your order.

item no.: MOTIVE2025VAR1

A bed that offers a sense of security

Our children's care beds are more than just functional – they can now be personalised with charming design elements. Playful details bring joy to the nursery and turn the care bed into a familiar haven.

This creates a place where your child feels safe yet is still free to be a child.

More than just care –
a little bit of home!

Felix

As flexible as Felix – the therapeutic couch without limits

This therapeutic couch offers your child a large therapeutic area and a low entry height. This makes the therapy particularly pleasant for parents, carers and children. It also conceals sufficient storage space for therapy needs and much more.

Its homely design and disinfectability makes Felix thoroughly suitable for everyday use.

According to Medical Device Regulation
CE-Markering

Felix (a)

Felix' individual strengths

It is often the small practical aids that decide whether something is good or bad in everyday use. As manufacturers of furniture for rehabilitation purposes, we have incorporated this valuable experience in the design of our new therapeutic bed. The result is a multifunctional couch in a design that appeals to children.

Handy: storage box for utensils like, for example, blankets and preparations

Materials: Powder-coated tubular steel frame, Skai-padded lying surface

height adjustment
68 - 103 cm

Many wood colours possible (see p. 83)

Flexible use - Babybox/Therapy box

Our therapy box offers parents of children with disabilities a safe and flexible solution for creating a protected environment.

It can be individually adapted to the needs of your child and therefore offers optimum support in everyday care.

The Therapy box consists of:

- A door element with lock
- Seven elements to assemble
- Eight feet to assemble

Technical data

Height of the elements	Width of the elements	Article no.
100 cm	90 cm	100.090.01.07
Type of wood		
Beech wood, pine wood		
Bar spacing		
6 cm		

Adaptable to your home

The size of the Babybox can be easily adapted by adding or removing individual elements. This means you can always create the right space for your child - whether for therapy or for a safe stay in everyday life.

Changing table

The ergonomic changing station

Every centimetre counts: a conventional changing table often forces you into an unhealthy posture. Our height-adjustable changing table adapts to you, not the other way round! Thanks to a modern lifting mechanism, you can adjust the working height continuously to find the ideal position – for a completely back-friendly experience.

*the changing mat and
changing table are easy to clean*

high safety edges

*height adjustment
70 - 105 cm*

The benefits of the changing table

- Ergonomics & health: Prevents back pain and postural problems by adjusting the working height at the touch of a button.
- Maximum safety: Fitted with high safety edges and sturdy materials.
- Sturdiness: A robust wooden frame ensures stability even with larger children or teenagers.
- Hygiene: Seamless, wipeable surfaces and padding allow for quick disinfection.

Give your back the break it deserves. Change nappies ergonomically now!

plenty of storage space

Create your own

SAVI® - children's bed!

Create your children's bed for rehabilitation!

This is a list which you can use to create your children's bed for rehabilitations. We will take your wishes into consideration and make an offer about one of our bed's.

Just make a cross and decide how your bed should look like:

1. Lying area of the bed?

- ☐ 65 x 155 cm ☐ 70 x 140 cm ☐ 90 x 170 cm
☐ 90 x 200 cm ☐ 100 x 200 cm other size: _____

2. Which barred side do you need? Height (cm): _____

3. Do you use a patient-lifter? ☐ Yes ☐ No

4. Which lying height (top of slatted base) do you need?

- ☐ 40 cm ☐ 50 cm ☐ 60 cm ☐ 70 cm other height: _____

5. Do you need an electric height adjustment? ☐ Yes ☐ No

6. Which slatted bed base do you need?

- ☐ no adjustment ☐ manual adjustment ☐ step-protection for the bed base
☐ electric adjustment ☐ Trendelenburg-function

7. What kind of doors do you want?

- ☐ 4-winged folding sliding door ☐ 270° door ☐ side rail "hide away" ☐ folding door
☐ lowerable side rail ☐ electric lowerable side rail

8. How many doors do you need?

- ☐ front side ☐ front and back sides ☐ head and footelement

9. Locking mechanism?

- ☐ SAVI-lock I ☐ SAVI-lock II ☐ SAVI-lock III ☐ SAVI-lock IV

10. Do you need perspex?

- ☐ Yes. Where?: _____ ☐ No

11. Kind of wood / wood-colour? Wood:

- Wood-colour: ☐ natural ☐ basalt ☐ wenge ☐ barrique ☐ teak ☐ walnut
☐ white stained ☐ white lacquered

12. Colour feature?

- ☐ natural ☐ yellow ☐ orange ☐ red ☐ grey ☐ blue-purple ☐ purple
☐ blue ☐ green ☐ white ☐ pink ☐ other colour: _____
☐ coloured sticks ☐ children's name: _____

13. Running gear? ☐ castors ☐ without castors

14. Do you want drawer? ☐ Yes ☐ No

15. Do you want a mattress? ☐ Yes ☐ No

If yes, which one?

- ☐ polyfoam mattress ☐ interior spring mattress ☐ cold foam mattress
☐ Reha-Star II ☐ Reha-Star Plus ☐ incontinence cover

16. Do you need a padding? ☐ Yes ☐ No

If yes, which one?

- ☐ loose Skai-padding ☐ fixed Skai-padding ☐ edge-padding ☐ motifpadding MALU
 height of the padding: _____ colour of the padding: _____

17. Do you need vinyl windows?

- ☐ Yes. Where? _____ ☐ No

18. Equipment?

- ☐ removable posts (Niklas) ☐ net-roof ☐ raising aid ☐ lockable handset box
☐ tube feed-through (gap) ☐ infusion holder ☐ drawers ☐ mattress holder
☐ touch-protection for height adjustment ☐ foot cut-out (e.g. for patient lift)
☐ central locking device for 4-roller chassis (Knut a+b only) ☐ access aid made of artificial leather
☐ supply opening (hole) with closing mechanism

☐ Please use this statements to create an offer, where you choose a model, which fulfils the handicaps to the greatest possible extent.
